

Energy Financing

Financing Energy Efficiency

WHAT IS ENERGYCA?

The EnergyCA Program was created for the purpose of helping communities achieve costs savings by providing loans to implement durable cost-effective, energy efficiency equipment and facilities.

The bond proceeds can be used to finance the construction, acquisition of land, equipment financing, or renovation so long as the project's incidental activities and investments directly relate to the implementation of an energy efficiency measure.

Our program alleviates the agencies from the tasks involved with the application processes for federal or state funding, environmental approvals for green bond status, and the overall management of the financing process. CalMuni PFA will save you time and money to allow you to focus on your goal of creating a greener future for your community.

BENEFITS

LOW INTEREST RATES

For qualifying energy efficiency projects you can obtain financing at as low as ZERO percent interest rates.

SIMPLE, EFFICIENT PROCESS

We provide all forms of resolutions, staff reports and financing agreement for easy, quick adoption.

FEDERAL & STATE FUNDING

CalMuni PFA will manage the application process for federal and state funding for qualifying energy efficiency projects.
