

Community Facilities Program

Financing essential community facilities

WHAT IS CFCA?

CalMuni's CFCA Program brings streamlined financing to California municipalities through the issuance of low-cost tax-exempt and taxable revenue bonds to finance the acquisition and development of public projects.

Qualifying projects include civic centers, museums, recreational facilities, community centers, public safety facilities, educational facilities, streets and street lighting, health care facilities, courthouses, and other public buildings and facilities. CalMuni PFA has the discretion of identifying specific projects that are eligible for the program so long as there are public purpose aspects.

BENEFITS

EXPERT CONSULTANTS

We collaborate with you each step of the way and always provide you with detailed advice for your financing decisions.

FIXED INTEREST RATES

Fixed interest rates are available at lower rates than what is being charged by other financial institutions.

QUICK RESPONSE
